ADS TECHNOLOGY PANEL

Commercial grade ADS technology accurately displays image quality and colour depth with no fall-off in colour accuracy. These panels are designed to achieve ultimate lifelike colour temperature when used in either landscape or portrait.

HIGH BRIGHTNESS

Designed for brightly lit spaces such as retail stores and shopping centres. Almost 2-3 times the brightness level of a standard domestic screen or monitor, making your content really stand out from the crowd.

24/7 COMMERCIAL USE

These displays are able to be in constant use 24/7 for over 50,000 hours thanks to their commercial grade LCD panel, media player and other components.

NARROW BEZEL

These displays feature a slim border for applications where this is important, such as placing multiple screens side-by-side.

OPT.1: LCD MONITOR

Users can choose the stretched display as LCD Monitor with HDMI IN or others which allows to connect to any external media player or mini PC if required.

OPT.2: AIO ANDROID SCREEN

Integrated with Android player, allows to update content via USB or online CMS. You can also install any 3rd party CMS Software if required.
